PROBIOTIC (MICRO-ENCAPSULATED)

To overcome
probiotic viability challenge

A revolutionary
**Worldwide Patented
Probiotic Technology**

Intellicaps® Advantage

- **5 times lower use**
of probiotic quantities
- **1000-fold higher concentration**
of viable probiotics at colon

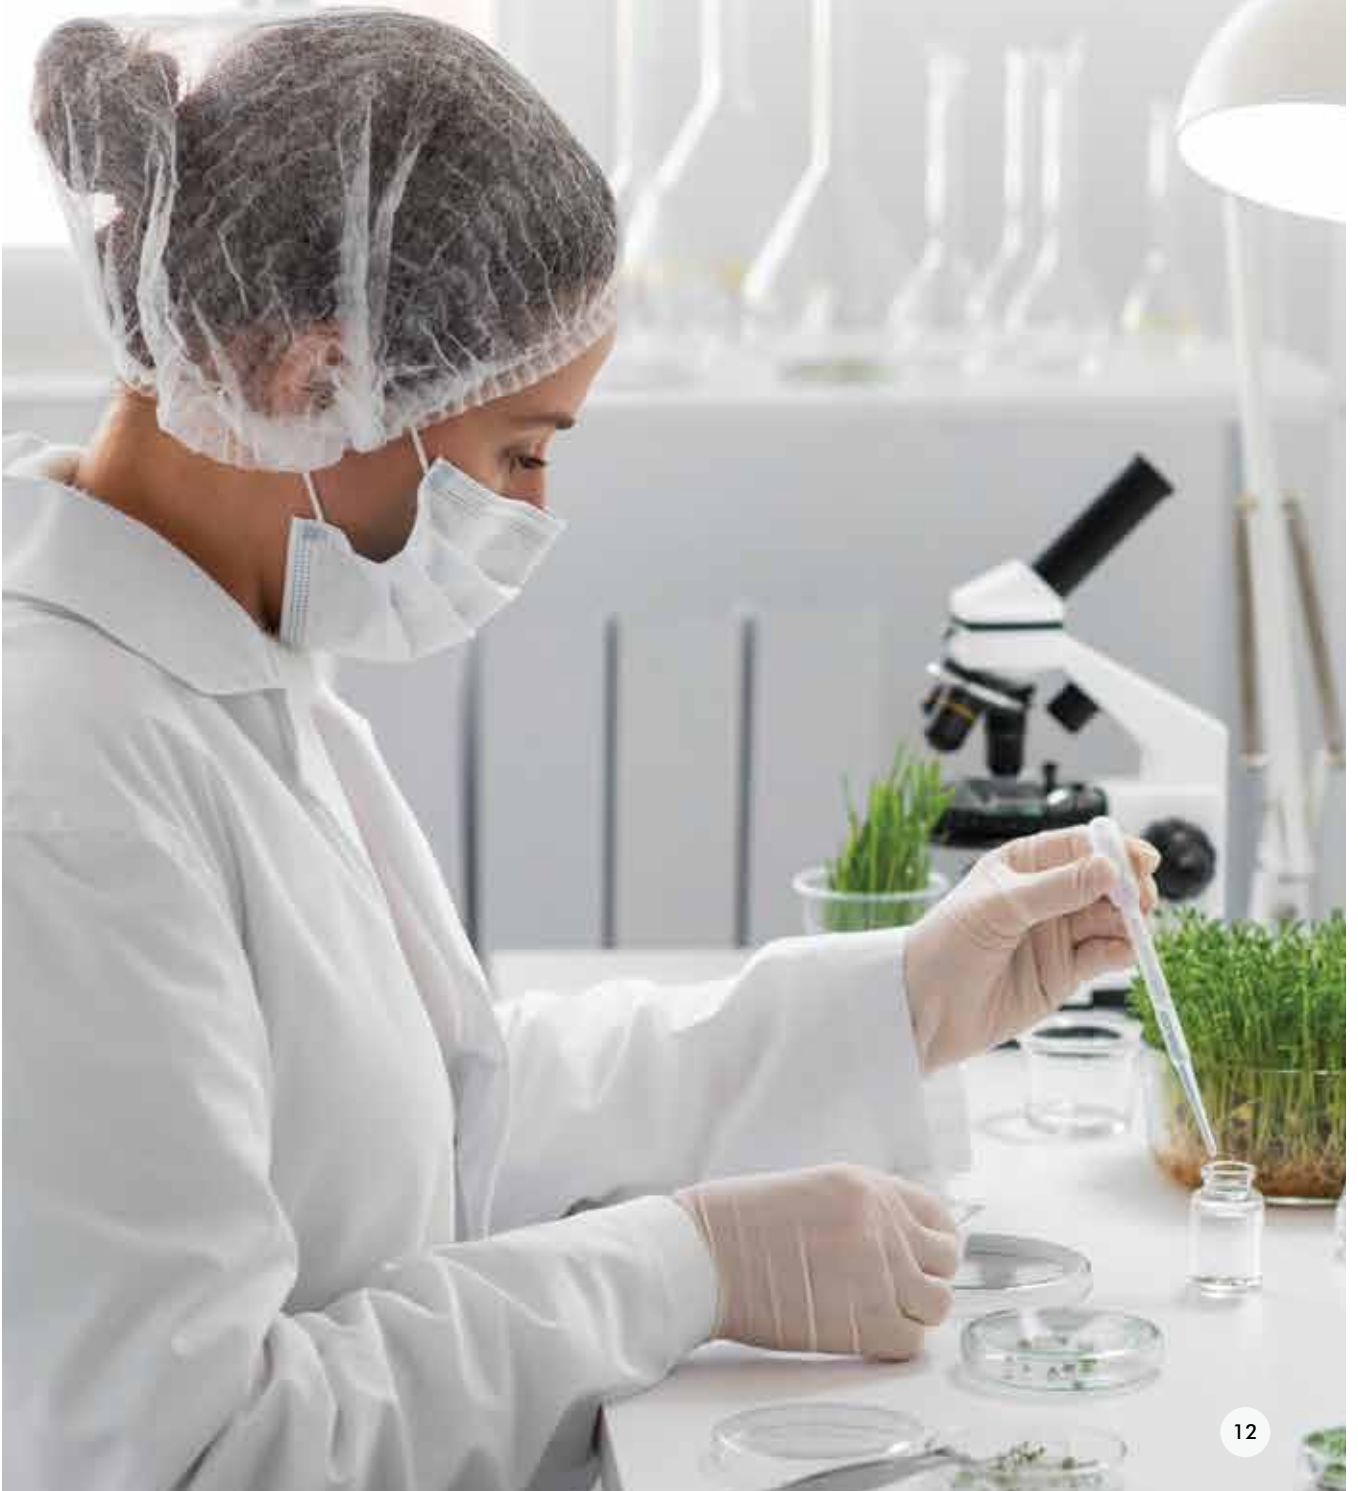

Intellicaps Technology

Intellicaps® technology is a unique process in the world of micro-encapsulation of probiotic strains which offers them protection and delivery never before equaled.

Intellicaps® significantly increases the survival of live probiotics through the gastric passage and is in fact an excellent colonic delivery system. The survival and availability of live probiotics are thus 1,000 times greater than those of their conventional freeze-dried counterparts.
